

# Stop Psychiatrists Killing Platypus

## WORLD WILDLIFE DAY, 3<sup>RD</sup> MARCH 2020

Victorian Parliament Steps, 11am- 1pm

**Demand our Government**

### **Abolish Forced Psychiatric Drugs**

Psychiatric drugs not only harm the humans that have these drugs forced on them, psychiatric drugs are also polluting our rivers and killing the life that lives there.

20% of Australians are forced to take neurotoxins, synthetic products, made by pharmaceutical companies that exceed CO2 emissions of the automotive industry.

*Psychiatric drugs are not being fully removed from wastewater.*

These forced products also contribute to plastic waste, and incinerator burn-off. If the 5 million Australians forced to take psychiatrists' neurotoxins, had the right to refuse these toxic products, imagine the

reduction in pollution, how our rivers and life there would more easily flourish, rather than having to suffer and die!

Platypus don't fare well on psychdrugs any more than humans do. No one wants psychdrugs in their body! While our government still legislates to force psychiatric drugs into humans, our rivers are becoming increasingly polluted by these toxins. There are massive health risks to humans and wildlife with the amount of psychdrugs found in wastewater. And these pharmaceutical products are not easily removed from wastewater, which is then dumped into rivers, and used in farming.

The Royal Commission into BLOODY psychiatrists' & mental health association company violations, is doing nothing to stop forced psychiatric drugging, instead, the Victorian Government wants to twist and pervert what Australians most violated by psychiatrists are saying, and then to our disgust, highlight those perpetrating psychiatrists who submitted to the Royal Commission for more

government hand-outs. The Victorian Royal Commission into Mental Health associated companies has ignored our pleas to abolish forced psychiatry, ignored the impact on humans, wildlife and our environment. [Our government, puppeteered by big pharmaceutical lobbies](#) and the exploitative mental Health associated companies, wants to tax us, to increase the violations, on us, our environment, platypus and other river life. Stop psychiatrists from killing platypus and allow the twenty per cent of Australians forced to take neurotoxins the #right2refuse psychiatrists.

## DEMAND

### THE RIGHT TO REFUSE PSYCHIATRISTS' PRODUCTS!

[#victimsofpsychiatrists](#)

need legislative change NOW!

**FORCED PSYCHIATRY**

**IS A BLOODY TOXIC, CRUEL EXPLOITATION RACKET**

**That must be ABOLISHED**

[abolishpsychiatry.org](http://abolishpsychiatry.org)

**STAND WITH US, 3<sup>rd</sup> March**

**at Victorian Parliament, 11am – 1pm**

**What have platypus done to deserve forced psychiatry?  
Forced psychiatric drugs are the worst kind of torture –  
only psychiatrists deserve that!**

- Tell Minister Folley he is off his trolley thinking he can get us tax-payers to agree to increase neurotoxins in the river water!
- That 5 million Australians currently forced to kill platypus through mental health legislation want the #right2refuse!
