

## Abolition of Civil Conscription Act No. 1 of 2022

### An Act

This policy, is an act to comply with Australia's Constitution. 1 v 51 xxiiiA of the Federal Constitution of Australia Act, urgently needs to be implemented after 75 years of delays.

The legislature is in conflict until that implementation occurs. The Constitution is in breach by all responsible Australian Officials, and their services, until 1 v 51 xxiiiA is fully implemented, so that nothing in the Australian legislature authorizes any form of civil conscription of medical or dental 'provisions/ services' on Australian people, or visitors. That 1 v 51 xxiiiA demands that there be no such forced human experimentation, or coerced human experimentation, in the Australian legislature. That, and the crime of forced and coerced human experimentation, be stopped, so that Australian lives and livelihoods will NOT be curtailed, by the medico-pharmaceutical and dental criminal acts, that are deliberately sabotaging Australia's economy and people.

75 years of delays, is a non-compliance with an oath, and a contract, for Australia. The promise, won by referendum in 1946, must be implemented, the promise must be fulfilled. Every second, the Abolition of Civil Conscription, is delayed, it is costing Australia. It must not be delayed further, that of Abolition of Civil Conscription, compliance with 51xxiiiA.

That all encroachments on Australian people, by scams of 'provisions' must be scrutinised and stopped, before the scam is funded, and causes damages. That of which pertains to 1 v 51 xxiiiA, is where the Australian Constitution demands perpetrators of civil conscription, slavery, torture, sabotage and that of false and misleading medicalisation, must be prosecuted. Australia already has laws for peace, order and good government to apprehend such Crimes Against Humanity and the Commonwealth.

Be it enacted by the Senate and House of Representatives of the Australia in parliament assembled, That this Act may be cited as the 'Abolition of Civil Conscription Act No. 1 of 2022'.
